Reg No. HIS-80151-AA

SCOPE OF THE INSPECTION:

The roof of the dwelling at the above property has been inspected by a qualified inspector employed by HomeGuard Incorporated. The professional opinion of the inspector contained in this report is solely an opinion and does not constitute a warranty or guarantee. The inspector has inspected all exterior roof components and documented in general terms the type of roof, its intended life and overall condition at the time of this inspection. Where accessible, HomeGuard Incorporated has noted all conditions that may compromise any inspected roof component's ability to shed water and/or realize its intended life. Verification of actual roof performance and/or troubleshooting of existing conditions, such as water testing, are NOT included in the scope of our inspection unless specifically requested and mentioned in our report. This inspection should not be considered a guarantee of actual roof performance, as performance is contingent upon the condition of internal system components not accessible to our inspector. This roof was not inspected for conformance to local building codes. The inspector has not inspected the attic area nor did the inspector perform a visual interior inspection looking for past or present roof performance issues. All present and prior disclosures along with other inspection reports should be reviewed and addressed prior to the close of escrow.

GENERAL DESCRIPTION:

This structure is a one story single family dwelling. Unless specifically mentioned in this report, the following are NOT included in this report: decks, balconies, detached structures, patio covers, out buildings, sheds, skylights and bonus rooms.

Main Roof:

The roof is a metal tile system. The roof appears to have been professionally installed and shows typical wear and tear for roof of this type and age. Metal roofs of this type are typically installed over previous roof installations - the number of layers could not be verified. The intended life of a metal tile roof is 40+ years. The estimated remaining serviceable life of the roof is 15-20 years. The pitch of the roof appears to be 5:12-6:12. The overall condition of the roof is fair. Occupant report's no leakage at this time.

FINDINGS:

1. Roof pictured. (See Photo 1)
2. The plumbing, heater, and gas vents have been sealed with mastic at the roofline. The mastic has cracked and is beginning to peel away from the surfaces it was intended to seal, exposing these areas to subsequent leakage. (See Photo 2) (See Photo 6)

RECOMMENDATION:

Reseal plumbing, heater, and gas vents at the base (roofline). If the area is over a painted surface, we will paint to match as closely as possible for cosmetic reasons. Weather permitting.

3. There are areas of the roof surface that have been sealed with mastic/ caulking. The mastic is showing signs of wear and tear and must be resealed. Mastic is usually used around skylights, pipe vents, corner seams and other penetrations to help ensure a watertight seal. The typical serviceable life of mastic before it begins to crack is 3 to 5 years. (See Photo 3) (See Photo 11) (See Photo 13)

RECOMMENDATION:

Apply new coat of mastic/ caulking at areas of the roof that have been previously sealed with mastic or where needed to ensure a watertight seal. If the area is over a painted surface, we will paint to match as closely as possible for cosmetic reasons, weather permitting.

4. Debris is impeding water travel at the valley. (See Photo 4) (See Photo 12)

RECOMMENDATION:

Remove debris from the valley.

5. The chimney/counter flashing requires sealing. (See Photo 5)

RECOMMENDATION:

Seal the chimney/counter flashing with caulking/mastic as required to ensure a watertight condition.

6. The plumbing/vent flashing(s) are not adequately sealed at the collars. (See Photo 7)

RECOMMENDATION:

Seal all plumbing/vent collars with rubber collars where needed to ensure a watertight condition.

7. During the course of this inspection we noted dented field tile(s). (See Photo 8) (See Photo 9) (See Photo 10)

RECOMMENDATION:

Repair and/or replace dented field tiles where we deem necessary. We will use the closest matching materials available.

8. During the course of this inspection we noted areas of the tiles to have significant granule loss. While the tile appear to be functional at this time, this condition should be monitored for future performance. (See Photo 14) (See Photo 15)
9. Debris was noted to be collecting in the rain gutter system. For gutter maintenance and function, interested parties are advised to contact someone in this line of work for recommendations. (See Photo 16)

SUMMARY:

The cost to service item(s) 2, 3, 4, 5, 6, 7 is \$1595.00. If any hidden defects or damages are uncovered during the course of repairs, a supplemental report will be issued. HomeGuard, Incorporated does not warranty repairs performed by others. For maintenance and/or warranty information, interested parties are advised to contact the original contractor and/or the manufacture. HomeGuard, Incorporated does not warranty repairs performed by others.

NOTICE TO OWNER - MECHANICS LIEN

Anyone who helps improve your property, but who is not paid, may record what is called a mechanic's lien on your property. A mechanic's lien is a claim, like a mortgage or home equity loan, made against your property and recorded with the County Recorder. Even if you pay your contractor in full, unpaid subcontractors, suppliers, and laborers who help to improve your property may record mechanic's liens and sue you in court to foreclose the lien. If the court finds the lien valid, you could be forced to pay twice or have a court officer sell your home to pay the lien. Liens can also affect your credit.

To preserve their right to record a lien, each subcontractor and material supplier must provide you with a document called a "20-day Preliminary Notice". This notice is not a lien. The purposes of the notice is to let you know that a person who sends you the notice has the right to record a lien on your property if he or she is not paid.

BE CAREFUL. The preliminary notice can be sent up to 20 days after the subcontractor starts work or the supplier provides material. This can be a big problem if you pay your contractor before you have received the preliminary notices. You will not get preliminary notices from your prime contractor or from laborers who work on your project. The law assumes that you already know that they are improving your property.

PROTECT YOURSELF FROM LIENS. You can protect yourself from liens by getting a list from your contractor of all these subcontractors and material suppliers that work on your project. Find out from your contractor when these subcontractors started work and when these suppliers delivered goods and materials. Then wait 20 days, paying attention to the preliminary notices you receive.

PAY WITH JOINT CHECKS. One way to protect yourself is to pay with a joint check. When your subcontractor tells you it is time to pay for the work of a subcontractor or supplier who has provided you with a preliminary notice, write a joint check payable to both the contractor and the subcontractor or material supplier. For other ways to prevent liens, visit CSLB's web site at www.cslb.ca.gov or call CSLB at 1-800-321-2752.

Remember if you do nothing, you risk having a lien placed on your home. This can mean that you may have to pay twice, or face the for sale of your home to pay what you owe.

INFORMATION ABOUT CONTRACTOR'S STATE LICENSE BOARD (CSLB)

CSLB is the State Consumer Protection Agency that licenses and regulates construction contractors. Contact CSLB for information about the license contractor you are considering, including information about disclosable complaints, disciplinary actions and civil judgments that are reported to CSLB. Use only licensed contractors. If you file a complaint against a licensed contractor within the legal deadline (usually 4 years), CSLB has authority to investigate the complaint. Licensed contractors are regulated by laws designed to protect the public. If you use an unlicensed contractor, CSLB may not be able to help you resolve your complaint. Your only remedy may be in a civil court, and you may be liable for damages arising out of any injuries to the unlicensed contractor or the unlicensed contractor's employees.

For more information; Visit CSLB's web site at www.cslb.ca.gov, or call 1-800-321-2752, or write at PO Box 26000, Sacramento, CA 95826

BINDING ARBITRATION PROVISION

Any dispute, claim, or controversy arising out of or relating to this agreement or the breach, termination, enforcement, interpretation, or validity thereof including the determination of the scope or applicability of this agreement to arbitrate, shall be determined by arbitration in the county of the property mentioned in this contract before one arbitrator. The arbitration shall be administered by JAMS pursuant to its comprehensive arbitration rules and procedures. Judgement on the award may be entered in any court having jurisdiction. This clause shall not preclude parties from seeking provisional remedies in aid of arbitration from a court of appropriate jurisdiction. The parties agree that the arbitrator shall be a retired judge from the county in which the arbitration takes place.

NOTE ABOUT EXTRA WORK AND CHANGE ORDERS

Extra work and change orders become part of the contract once the order is prepared in writing and signed by the parties prior to commencement of any work covered by the new change order. The order must describe the scope of the extra work or change, the cost to be added or subtracted from the contract, and the effect the order will have on the schedule of progress payments. The delayed payment accommodation fee will be waived when payment is received by HomeGuard Incorporated within five (5) days of issuance of the Notice of Completion.

The amount due will be payable upon completion of work. It is understood that the contract price does not include the charge of the inspection report or re-inspection fees. Inspection number 595652 is attached hereto and incorporated herein:
